

***Application for Admission Membership as an Adhering Body
of the International Union for Pure & Applied Biophysics***

Name of the organization applying for membership:

.....

Address of the adhering body:

.....
.....
.....

Contact person for this application

Title (Prof. Dr)

Family name:

Given name:

Position

Email

Telephone/Fax

Signature:

Category of membership application (check one selection)

Category 1: € 4,500

Category 2: € 2,250

Category 3: € 750

Observer: € 100

Send this application to:

Dr C.G. dos Remedios, IUPAB Secretary General
Anderson Stuart Building, Bosch Institute
The University of Sydney
Sydney 2006, Australia

Or Fax it to: +61 2 93516546 or email to dosremedios@iupab.org

Professor Cristobal G. dos Remedios
Secretary General
International Union for Pure & Applied Biophysics
Bosch Institute (Bldg F13)
The University of Sydney
Sydney, 2006, Australia

Application for Membership as an Adhering Body of IUPAB

The International Union for Pure and Applied Biophysics (IUPAB) comprises over 50 adhering bodies. These are normally the National Academy of Science (or its equivalent) or the national Biophysical Society (in certain circumstances both bodies may apply for membership). The IUPAB welcomes applications for membership from new national bodies / organizations.

Biophysics is broadly defined as that branch of science that applies the principles of physics, chemistry, mathematical analysis and computer modelling to the understanding of how biological systems function. The IUPAB is concerned with both pure and applied aspects of this definition. While there is a degree of overlap between biophysics and other disciplines, it is the blend of the above attributes that sets IUPAB apart from other unions.

National organizations and/or national biophysical societies can apply for membership as adhering bodies at any one of the following subscription levels:

Category 1: € 4,500

Category 2: € 2,250

Category 3: € 750

Observer: € 100.

Note: Membership categories 1 through 3 enable adhering bodies to send 3, 2 and 1 voting delegates respectively to all General Assemblies. Organizations subscribing at the Observer status level may not vote in General Assemblies.

An application for membership or for a change in membership category must be approved by the General Assembly of the Union before it can take effect.

C. G dos Remedios
Secretary General
International Union for Pure & Applied Biophysics.
October 17, 2009.
